

4-(Trifluoromethyl)benzoic acid

Cat. No.:	HY-W015198		
CAS No.:	455-24-3		
Molecular Formula:	C ₈ H ₅ F ₃ O ₂		
Molecular Weight:	190.12		
Target:	Biochemical Assay Reagents		
Pathway:	Others		
Storage:	Powder	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	6 months
		-20°C	1 month

BIOLOGICAL ACTIVITY

Description	4-(Trifluoromethyl)benzoic acid is a biochemical reagent that can be used as a biological material or organic compound for life science related research.
In Vitro	<p>4-(Trifluoromethyl)benzoic acid was used in the synthesis of salicylanilide 4-(trifluoromethyl)benzoates via N,N'-dicyclohexylcarbodiimide coupling in dry N,N-dimethylformamide. It was used as internal standard during the ultra trace analysis of fluorinated aromatic Carboxylic acids by GC/MS method.</p> <p>MCE has not independently confirmed the accuracy of these methods. They are for reference only.</p>

Caution: Product has not been fully validated for medical applications. For research use only.
