

epi-Inositol

Cat. No.:	HY-W016509
CAS No.:	488-58-4
Molecular Formula:	C ₆ H ₁₂ O ₆
Molecular Weight:	180
Target:	Endogenous Metabolite
Pathway:	Metabolic Enzyme/Protease
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

BIOLOGICAL ACTIVITY

Description	epi-Inositol is an endogenous metabolite present in Cerebrospinal_Fluid that can be used for the research of Ethanol Consumption ^{[1][2]} .
In Vitro	Endogenous metabolites is defined as those that are annotated by Kyoto Encyclopedia of Genes and Genomes as substrates or products of the ~1900 metabolic enzymes encoded in our genome. It is clear in the body of literature that there are documented toxic properties for many of these metabolites ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
