

Ethoxyacetic acid

Cat. No.:	HY-W027555
CAS No.:	627-03-2
Molecular Formula:	C ₄ H ₈ O ₃
Molecular Weight:	104.1
Target:	Endogenous Metabolite
Pathway:	Metabolic Enzyme/Protease
Storage:	4°C, stored under nitrogen * In solvent : -80°C, 6 months; -20°C, 1 month (stored under nitrogen)

BIOLOGICAL ACTIVITY

Description	Ethoxyacetic acid is an endogenous metabolite.
IC ₅₀ & Target	Human Endogenous Metabolite

Caution: Product has not been fully validated for medical applications. For research use only.
