

## Methyl undec-10-enoate

Cat. No.:	HY-W068214		
CAS No.:	111-81-9		
Molecular Formula:	$C_{12}H_{22}O_2$		
Molecular Weight:	198.3		
Target:	Biochemical Assay Reagents		
Pathway:	Others		
Storage:	Pure form	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	6 months
		-20°C	1 month

### BIOLOGICAL ACTIVITY

Description	Methyl undec-10-enoate, which is an ester formed by the condensation of methanol and undec-10-enoic acid, is commonly used as a flavoring and fragrance in the food and cosmetic industries due to its sweet fruity smell and taste, in addition, its potential use in biofuel production and as a starting material for the synthesis of various organic compounds was investigated.
In Vitro	Methyl undec-10-enoate is a biochemical reagent that can be used as a biological material or organic compound for life science related research. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

**Caution: Product has not been fully validated for medical applications. For research use only.**
