

## Methyl undec-10-enoate

<b>Cat. No.:</b>	HY-W068214		
<b>CAS No.:</b>	111-81-9		
<b>Molecular Formula:</b>	C <sub>12</sub> H <sub>22</sub> O <sub>2</sub>		
<b>Molecular Weight:</b>	198.3		
<b>Target:</b>	Biochemical Assay Reagents		
<b>Pathway:</b>	Others		
<b>Storage:</b>	Pure form	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	6 months
		-20°C	1 month

### BIOLOGICAL ACTIVITY

<b>Description</b>	Methyl undec-10-enoate, which is an ester formed by the condensation of methanol and undec-10-enoic acid, is commonly used as a flavoring and fragrance in the food and cosmetic industries due to its sweet fruity smell and taste, in addition, its potential use in biofuel production and as a starting material for the synthesis of various organic compounds was investigated.
<b>In Vitro</b>	Methyl undec-10-enoate is a biochemical reagent that can be used as a biological material or organic compound for life science related research. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

**Caution: Product has not been fully validated for medical applications. For research use only.**
