## 1-Nitropyrene-d9

| Cat. No.:          | HY-W094755S   | _ <sup>-</sup> 0, _+0 |
|--------------------|---|-----------------------|
| CAS No.:           | 93487-20-8  |                       |
| Molecular Formula: | C <sub>16</sub> D <sub>9</sub> NO <sub>2</sub>                                  |                       |
| Molecular Weight:  | 256.3   |                       |
| Target:            | Isotope-Labeled Compounds   |                       |
| Pathway:           | Others  |                       |
| Storage:           | Please store the product under the recommended conditions in the Certificate of |                       |
|                    | Analysis.   | U U                   |

| BIOLOGICAL ACTIVITY |  |  |
|---------------------|--|--|
|                     |  |  |
| Description         | 1-Nitropyrene-d₀ is the deuterium labeled 1-Nitropyrene[1].  |  |
|                     |  |  |
| In Vitro            | Stable heavy isotopes of hydrogen, carbon, and other elements have been incorporated into drug molecules, largely as |  |
|                     | tracers for quantitation during the drug development process. Deuteration has gained attention because of its poten  |  |
|                     | affect the pharmacokinetic and metabolic profiles of drugs $^{[1]}$ .  |  |
|                     | MCE has not independently confirmed the accuracy of these methods. They are for reference only.                      |  |
|                     |  |  |
