

Hexyltrimethylammonium bromide

Cat. No.:	HY-W099682
CAS No.:	2650-53-5
Molecular Formula:	C ₉ H ₂₂ BrN
Molecular Weight:	224.18
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	4°C, sealed storage, away from moisture * In solvent : -80°C, 6 months; -20°C, 1 month (sealed storage, away from moisture)

BIOLOGICAL ACTIVITY

Description	Hexyltrimethylammonium bromide is a cationic surfactant, quaternary ammonium compound, detergent, emulsifier, phase transfer catalyst, antibacterial agent, electrochemical device, corrosion inhibitor, micelle former, industrial chemical.
In Vitro	Hexyltrimethylammonium Bromide is a biochemical reagent that can be used as a biological material or organic compound for life science related research. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

Caution: Product has not been fully validated for medical applications. For research use only.
