

Propan-2-amine-d₇ hydrochloride

Cat. No.:	HY-W101563S1
CAS No.:	106658-10-0
Molecular Formula:	C ₃ H ₃ D ₇ ClN
Molecular Weight:	102.61
Target:	Isotope-Labeled Compounds
Pathway:	Others
Storage:	Store at room temperature, keep dry and cool

HCl

BIOLOGICAL ACTIVITY

Description	Propan-2-amine-d ₇ (hydrochloride) is the deuterium labeled Propan-2-amine hydrochloride[1].
In Vitro	Stable heavy isotopes of hydrogen, carbon, and other elements have been incorporated into drug molecules, largely as tracers for quantitation during the drug development process. Deuteration has gained attention because of its potential to affect the pharmacokinetic and metabolic profiles of drugs ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
