

## Hexanoic anhydride

Cat. No.:	HY-W127410
CAS No.:	2051-49-2
Molecular Formula:	C <sub>12</sub> H <sub>22</sub> O <sub>3</sub>
Molecular Weight:	214.3
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

### BIOLOGICAL ACTIVITY

#### Description

Hexanoic anhydride is used as a reactant for the synthesis of cremomannolipin A. For the green synthesis of acyclovir dipivoxil (acyclovir proagent), for the preparation of hexanoyl-modified chitosan nanoparticles, chitosan-based polymer surfactants by N-acylation of chitosan .

**Caution: Product has not been fully validated for medical applications. For research use only.**
