

## Nitrilotriacetic acid trisodium salt

<b>Cat. No.:</b>	HY-W127847		
<b>CAS No.:</b>	5064-31-3		
<b>Molecular Formula:</b>	C <sub>6</sub> H <sub>6</sub> NNa <sub>3</sub> O <sub>6</sub>		
<b>Molecular Weight:</b>	257.08		
<b>Target:</b>	Biochemical Assay Reagents		
<b>Pathway:</b>	Others		
<b>Storage:</b>	Powder	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	6 months
		-20°C	1 month

### BIOLOGICAL ACTIVITY

<b>Description</b>	Nitrilotriacetic acid (Triglycollamic acid) trisodium salt is a chelating agent commonly used in various industrial processes, especially in the production of detergents, cleaners and metal plating solutions. Nitrilotriacetic acid trisodium salt has unique chemical properties that bind to metal ions, preventing them from reacting or precipitating out of solution.
<b>In Vitro</b>	Nitrilotriacetic acid trisodium salt is a biochemical reagent that can be used as a biological material or organic compound for life science related research. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

**Caution: Product has not been fully validated for medical applications. For research use only.**
