

## Lithium 3,5-diiodosalicylate

Cat. No.:	HY-W250174
CAS No.:	653-14-5
Molecular Formula:	C <sub>7</sub> H <sub>3</sub> I <sub>2</sub> LiO <sub>3</sub>
Molecular Weight:	395.85
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

### BIOLOGICAL ACTIVITY

<b>Description</b>	Lithium 3,5-diiodosalicylate is a compound used in the study of bipolar disorder and other psychiatric disorders. It contains lithium and a salicylate. Lithium 3,5-diiodosalicylate works by affecting the levels of certain neurotransmitters in the brain, including dopamine and serotonin.
<b>In Vitro</b>	Lithium 3,5-diiodosalicylate is a biochemical reagent that can be used as a biological material or organic compound for life science related research. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

**Caution: Product has not been fully validated for medical applications. For research use only.**
