

DL-Aspartic acid hemimagnesium salt

Cat. No.:	HY-W250311
CAS No.:	1187-91-3
Molecular Formula:	C ₄ H ₇ NO ₄ ·1/2Mg
Molecular Weight:	144.25
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

BIOLOGICAL ACTIVITY

Description	DL-Aspartic acid (hemimagnesium salt is DL-aspartic acid salt. DL-aspartic acid hemimagnesium salt is a commonly used food supplement and food additive, because it can promote the synthesis of protein in the human body, and has a positive effect on the nervous system and The production of cardiovascular system has a certain protective effect. In addition, due to some chemical reactions in the industry, DL-aspartic acid semi-magnesium salt can also be obtained.
In Vitro	DL-Aspartic acid hemimagnesium salt is a biochemical reagent that can be used as a biological material or organic compound for life science related research. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

Caution: Product has not been fully validated for medical applications. For research use only.
