

Antiproliferative agent-15

Cat. No.:	HY-W278944
CAS No.:	19819-18-2
Molecular Formula:	C ₁₆ H ₁₄ N ₂ OS
Molecular Weight:	282.36
Target:	Others
Pathway:	Others
Storage:	4°C, protect from light * In solvent : -80°C, 6 months; -20°C, 1 month (protect from light)

BIOLOGICAL ACTIVITY

Description	Antiproliferative agent-15 is an anticancer agent. Antiproliferative agent-15 shows antiproliferative activity against human colon (HCT116 and HCT15) and brain (LN-229 and GBM-10) cancer cell lines ^[1] .
In Vitro	Antiproliferative agent-15 (compound 6a) shows antiproliferative activity against human colon (HCT116 and HCT15), brain (LN-229 and GBM-10) cancer cell lines, with IC50 values of 8.3 μM, 4.8 μM, 18.3 μM, and 12 μM, respectively. However, Antiproliferative agent-15 has no active against ovarian (A2780) cancer cell lines and normal cell line (CHO) ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
