

Oxalic acid-¹³C₂

Cat. No.:	HY-Y0262S1
CAS No.:	62654-02-8
Molecular Formula:	¹³ C ₂ H ₂ O ₄
Molecular Weight:	92.02
Target:	Isotope-Labeled Compounds
Pathway:	Others
Storage:	4°C, sealed storage, away from moisture * In solvent : -80°C, 6 months; -20°C, 1 month (sealed storage, away from moisture)

BIOLOGICAL ACTIVITY

Description	Oxalic acid- ¹³ C ₂ is the deuterium labeled Oxalic acid, 99% (HY-Y0262) ^[1] . Oxalic Acid is a strong dicarboxylic acid occurring in many plants and vegetables and can be used as an analytical reagent and general reducing agent ^[2] .
In Vitro	Stable heavy isotopes of hydrogen, carbon, and other elements have been incorporated into drug molecules, largely as tracers for quantitation during the drug development process. Deuteration has gained attention because of its potential to affect the pharmacokinetic and metabolic profiles of drugs ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
