

Calcium chloride anhydrous, for cell culture

Cat. No.:	HY-Y0406E
CAS No.:	10043-52-4
Molecular Formula:	CaCl ₂
Molecular Weight:	110.98
Target:	Others
Pathway:	Others
Storage:	4°C, sealed storage, away from moisture * In solvent : -80°C, 6 months; -20°C, 1 month (sealed storage, away from moisture)

BIOLOGICAL ACTIVITY

Description

Calcium chloride anhydrous, for cell culture is an inorganic salt for the preparation of various buffers^[1].
